RCO FUN RIDE SUNDAY JULY 8TH

USA CYCLING
USCF permit pending

THE EVENT

The Roanoke Valley hosts the 2007 Coventry Commonwealth Games of Virginia Roanoke Cycling Weekend presented by VAS, Team El Toreo and the sponsoring club, the Roanoke Cycling Organization.

In 2006, the Roanoke Cycling Omnium was a huge success for those competitors that attended, placing the Roanoke Valley back on the map for road racing. We thank everyone from the racers to the volunteers for their support. The RCO and VAS wished for this to continue, unfortunately the road race and criterium hit our pocketbooks hard and those races have temporarily taken the back seat.

For 2007, we still wished to throw our hat in the ring at least by hosting the ever popular classic ascent - the Mill Mountain Time Trial. And, since we are unable to promote any additional road races, we still wish to show off our wonderful terrain by hosting the RCO Fun Ride on Sunday, July 8th. No license needed. Please add this event on BikeReg.com when registering for the time trial. First rider off at 1:00pm Visit www.roanokecycling.org/games for more race info.

THE TIME TRIAL COURSE

Race where the pros raced! Brian Walton, Floyd Landis and Scottie Weiss are just some of the few who have left their mark on this infamous up hill time trial. The single lane road meanders up the 900 vertical foot mountain with switchbacks and a unique tunnel/bridge road design which finishes just before the base of the actual star structure. This classic uphill time trial is 1.87 miles and a gain of almost 900 vertical feet. Course record is 8:27. For more info, please visit www.roanokecycling.org for details and results.
